INVENTORY OF LABOUR MARKET PROGRAMS AND SERVICES IN MANITOBA OPERATED AND FUNDED BY THE MANITOBA GOVERNMENT 1990/91

INTRODUCTION

This inventory has been prepared to provide a reference of major training, employment and labour market adjustment programs operated and funded by the Province of Manitoba. This document briefly describes each labour market program in Manitoba in terms of general program characteristics, identification of clients, planned investment dollars and anticipated output in terms of clients served and people employed. The annual time frame spans the fiscal year April 1, 1990 to March 31, 1991.

The inventory is not intended to provide a detailed description and analysis of each program. Additional information such as qualifying criteria, client selection, application procedures, etc. can be obtained by contacting the delivery agent indicated.

In addition to provincial funding of programs and services as noted in this document, the Government of Canada also provides funding in support of post-secondary education largely through Employment and Immigration Canada, and the Established Programs Funding Arrangements entered into with all provinces.

The Inventory of Labour Market Programs and Services was first published in 1981/82, incorporating provincial and federal programs and services. Annual updates were published each year until 1988/89. The 1990/91 publication includes only provincial programs.

Programs and Services have been grouped in seven sections as follows:

I. ***Institutional Training*** - Programs which are training in nature and are administered by public institutions, (i.e., community colleges, universities, public schools, hospital schools of nursing). Generally, persons are not employed while taking training.

II. ***Training and Employment*** - Programs which offer training and employment simultaneously. Clients are employed and undertake periods of training either in the workplace or in a training institution.

III. ***Employment Programs*** - Programs which help to create jobs and provide work experience.

IV. ***Income Support and Allowances*** - Financial support provided to persons while they are enrolled in an educational or training program.

V. ***Labour Market Adjustment*** - Measures designed to assist labour force participants to meet changing needs of the labour market.

VI. ***Employment Services*** - All employment-related counselling and referral services.

VII. ***Immigration and Settlement*** - Programs and services targetted specifically to assist immigrants.

General comments or inquiries about this inventory can be directed to:
